

“For students who want to explore the different career options in Medicine. Learn about the huge variety of medical careers from nursing and neuroscience to psychology and physiotherapy. You will gain an understanding of university applications as well as the requirements needed for UKCAT the medical school entrance exam”

# Careers in Medicine

CANTERBURY, UK

## WHAT'S INCLUDED:

### TUITION

Studying the practical applications of science for medicine through lectures and discussions around medical ethics, career pathways and strengthening applications to medical school. Students deliver presentations at end of their course on a theme from the course studies.

### QUALIFICATION

All students will complete a basic First Aid course with a qualified external trainer. There will also be the opportunity to gain the Crest Silver Award where students work independently or in groups to address a real-world problem.

### ACTIVITIES

We offer a variety of onsite and offsite activities. Our activities provide opportunities for students to have fun and make international friends.

### EXCURSIONS

Full day excursions allow students to really get to know the UK. We use major destinations such as London as a classroom, where students will find creative and cultural information through guided walks and visits to museums and other places of interest.

### CERTIFICATE

Awarded for the successful completion of the course and final presentation.

# Careers in Medicine

HELPING YOU INTO HEALTHCARE

## COURSE OVERVIEW

The course will be delivered through a combination of lessons and practical workshops that will allow students to develop their theoretical knowledge and its associated practical applications. Lessons will cover themes such as disease, genetics, the immune system and how drugs effect the body. Participants will complete a first aid course and attend a laboratories and forensics workshop. The course will also include a Science Create Award Silver project which is designed to stretch students and enrich their STEM studies. Students will develop their own medical project idea and use their communication, problem solving and teamwork skills.

## PROGRAMME OUTCOMES

You will:

- Develop communication, problem solving and teamwork skills by addressing a real-world challenge as part of the Science Crest Award
- Gain an understanding of the different careers in Medicine from Doctor and Dentist to Vet and Optometrist
- Develop practical skills and knowledge in the subjects of biology, chemistry and physics through lessons in English
- Understand the requirements needed for UKCAT medical school entrance exam through exam coaching and practice
- Have a better understanding of what is required to create a competitive application to medical school

## ACTIVITIES & EXCURSIONS

One full-day excursion per week is included. Destinations may include London, Brighton or Cambridge. The onsite activities programme is both fun and varied and has something that will interest both creative and sporty students alike. Each day will end with an energetic evening activity which encourages students to socialise with their new international friends. Evening activities are varied and entertaining and may include discos, talent shows and international evenings.
