

“For students who are interested in how science, technology, engineering and mathematics (STEM) can be applied in the real world, using Central London as the platform! Students combine STEM with English to improve their accuracy and fluency in an engaging environment. Develop the skills you need to be a world-class STEM professional - thinking critically, working in teams, and linking theory with experimentation.”

# STEM and English for Science

LONDON, UK

## WHAT'S INCLUDED

### TUITION

Workshop based study will be facilitated by background content tuition to allow students to better understand the science behind the activities and experiments. The course will incorporate individual, pair and group work and be communicatively focussed. Participants will also develop their Academic English skills, helping them to prepare for further studies in STEM related subjects in the future.

### LAB WORKSHOPS

Practical lab workshops are a key element of our STEM course and will allow theory learnt to be put into practice, working in small groups to solve practical problems and develop projects.

### ACTIVITIES

We offer a variety of onsite and offsite activities. Our activities provide opportunities for students to have a fun and make international friends.

### EDUCATIONAL VISITS

Our educational visits provide the perfect complement to lectures and workshops and provide a real world perspective to our courses. Visits may include The Science Museum.

### EXCURSIONS

Full day excursions allow students to really get to know the UK. We use major destinations such as Cambridge as a classroom, where students will find creative and cultural information through guided walks and visits to museums and other places of interest.

### CERTIFICATE

Awarded for the successful completion of the course.

INNOVATION AND CONVERSATION

## COURSE OVERVIEW

Students will take part in interactive lab-based lessons, demonstrations, and science-based English lessons as well as visits to local places of relevant interest based on themes represented in London, like Film and Sport.

Interactive Lab-Based lessons including a dissection, combustion of chemicals and designing a car.

Visit destinations may include the Science Museum, Olympic Park and London Film Museum.

English lessons will develop each of the four skills as well as knowledge of scientific vocabulary and grammar necessary to present their ideas in appropriate English.

## PROGRAMME OUTCOMES

- You will:
- Understand how STEM subjects solve real-life problems
  - Develop practical skills in and outside the lab.
  - Demonstrate your skills in a supportive environment
  - Improve your ability to work as part of a team

## ACTIVITIES & EXCURSIONS

Half-day excursions have academic and cultural learning objectives that will inform and inspire the academic programme as well as familiarising students with one of the world's greatest cities.

Evening activities are energetic, social & fun - highlights; a West End Musical, Disco and a comedy workshop. Weekend Excursions are stimulating with Saturday a mix of exploration and learning whereas Sunday is more relaxing.
