STEM

Northampton, UK

“For students who are interested in how science, technology, engineering and mathematics (STEM) can be applied creatively in the real world to solve problems. Develop the skills you need to be a world-class STEM professional - thinking critically, working in teams, and linking theory with experimentation.”

Northampton, UK

What's included:

Tuition

Workshop based study will be facilitated by background content tuition to allow students to better understand the science behind the activities and experiments. The course will incorporate individual, pair and group work and be communicatively focussed. Participants will also develop their Academic English skills, helping them to prepare for further studies in STEM related subjects in the future.

Lab Workshops

Practical lab workshops are a key element of our STEM course and will allow theory learnt to be put into practice, working in small groups to solve practical problems and develop projects.

Activities

We offer a variety of onsite and offsite activities. Our activities provide opportunities for students to have fun and make international friends.

Educational Visits

Our educational visits provide the perfect complement to lessons and workshops and give a real world perspective to our courses. Visits may include The National Space Centre in Leicester and the Silverstone Museum Tour.

Excursions

Full day excursions allow students to really get to know the UK. We use major destinations such as Cambridge and London as a classroom, where students will find creative and cultural information through guided walks and visits to museums and other places of interest.

Certificate

Awarded for the successful completion of the course.

Course Overview

Participants will take part in lectures and workshops as well as visits to local places of relevant interest. Potential workshops include topics such as Lego Robotics, Smartphone Spectrometer and a Hi Tech Escape Room. Students will take part in practical lab-work demonstrations to put the theory into practice. Visit destinations may include the National Space Centre in Leicester and the Silverstone Museum Tour.

Programme Outcomes

- Understand how STEM subjects solve real-life problems
- Develop practical skills in and outside the lab
- Demonstrate your skills in a supportive environment
- Improve your ability to work as part of a team

English, Activities & Excursions

One full-day excursion is included and destinations may include London and Cambridge. Two half-day excursions per week are also included and destinations may include Warwick Castle and Bicester Village. Each day will end with an energetic evening activity which encourages students to socialise with their new international friends. Evening activities are varied and fun and may include discos, talent shows and international evenings.
